

# Physical Exam

This story is about getting a physical exam. I can tell the doctor anytime if I need a break. The doctor needs to do her job, so I can stay healthy.

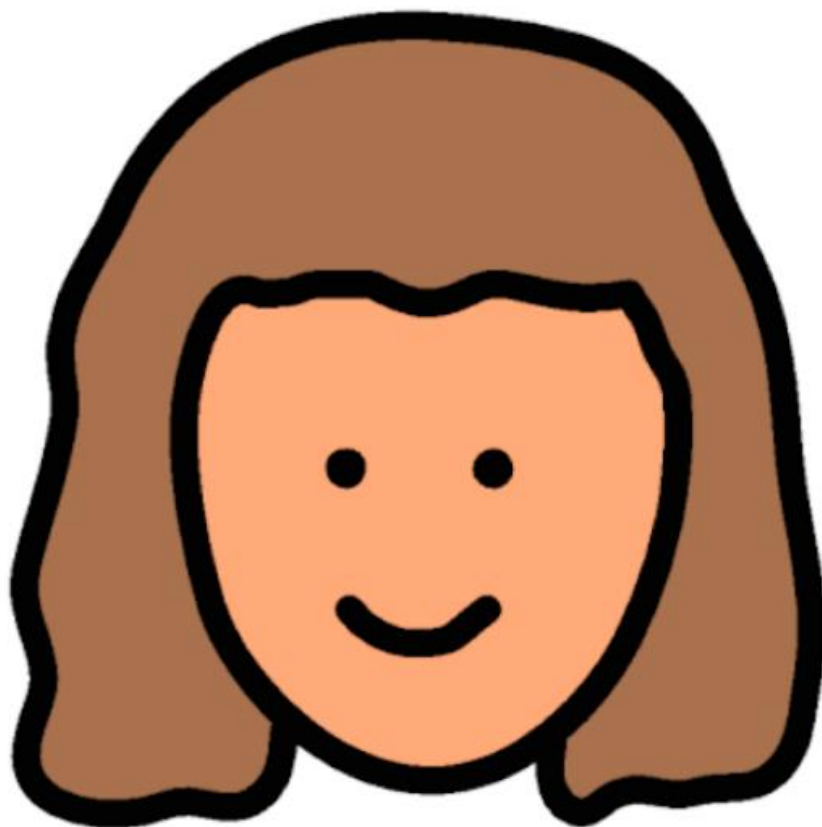

I may have to take off some of my clothes and  
put on a paper dress.

The doctor will feel different parts of my body  
to make sure everything is okay.

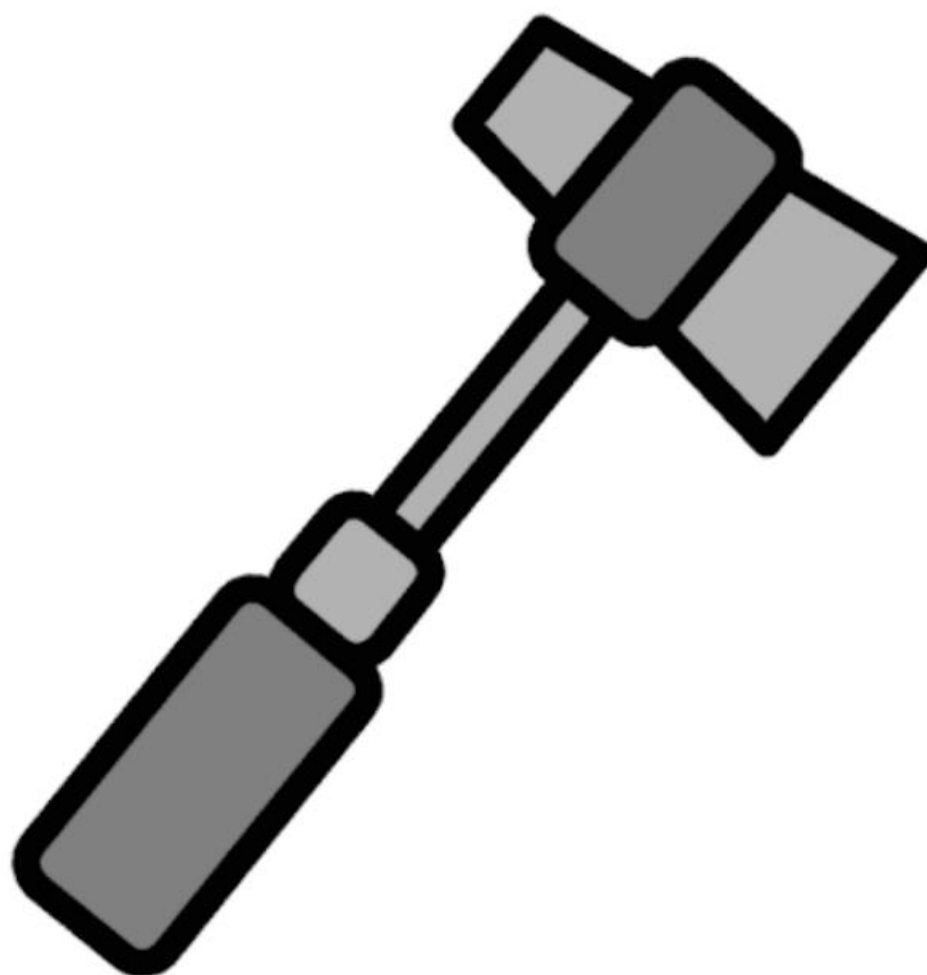

The doctor may check my eyes, ears, and  
throat.

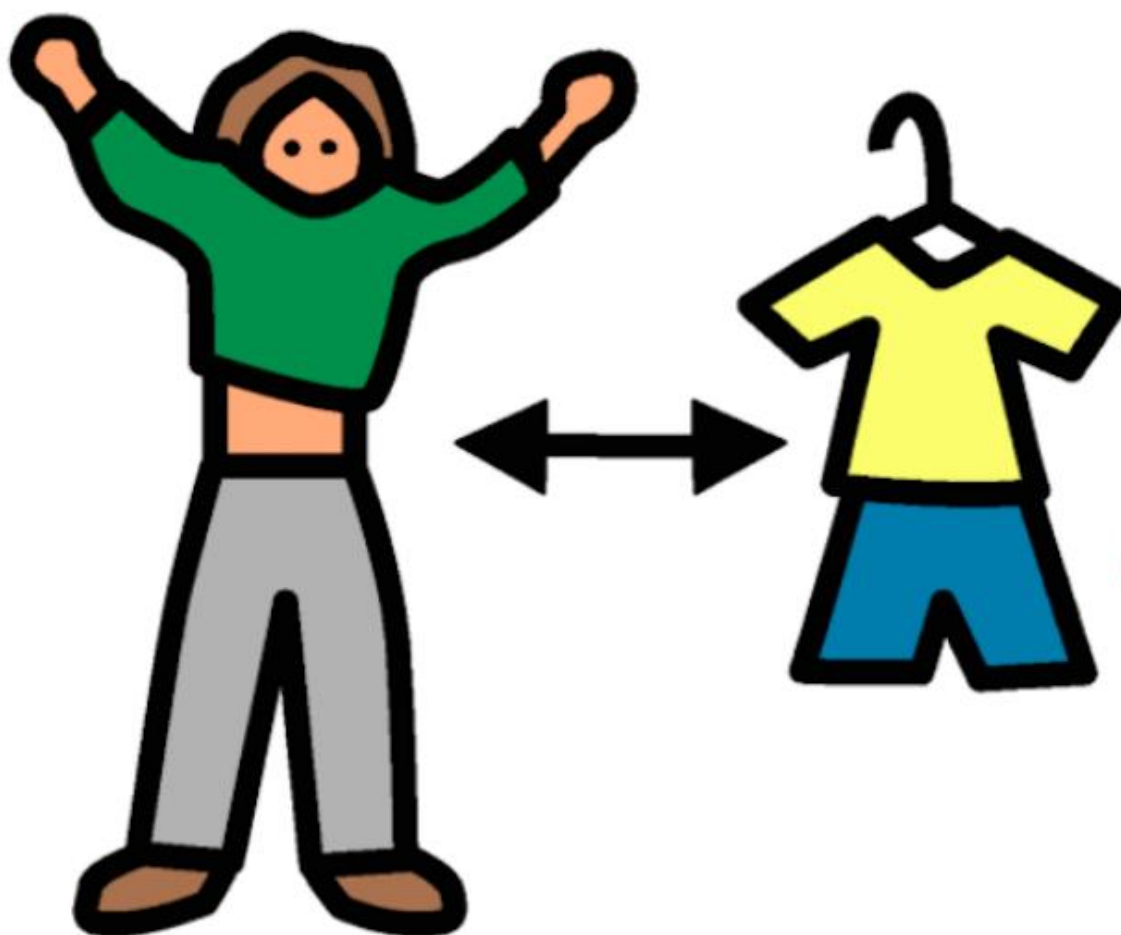

The doctor may listen to my heart  
and ask me to take deep breaths.

The doctor might tap softly on my  
elbow, knee, or ankle.

After the doctor finishes checking me, I can put my clothes back on.

I did a great job learning how to get  
my height and weight measured!
