

I Can Wear a Face Mask!

This story is about wearing a face mask. A face mask, or covering, can protect me from germs that can make me feel sick.

A face mask is something that covers my mouth and nose, but I can still breathe. Kids AND grownups can wear masks to stay healthy.

Some face masks are made of a
paper-like material.

Some face masks are made of cloth.

Some people wear a scarf or
bandana instead of a face mask.

Face masks or coverings can protect
me from germs that make me feel
sick.

It might feel funny the first time I
wear a face mask. It might feel
funny on my ears or on my nose.

A grown-up can help put on my
mask, and make it feel better on my
face.

I might need to practice wearing
this. I can even have my toys
practice!

It is important to remember to listen
to grown-ups about the important
rules for wearing a mask.

To keep the germs away, it is
important to try and not touch my
face.

I can also keep my hands clean by washing them. I know how to wash my hands, and a grown-up can help me.

My family will be so proud when I wear
my face mask and keep my hands clean.

I did a great job learning about face
masks! I am staying healthy!
